

Our routine redesign

Trio initials: _____

1

Our brief

Stage 2 · agree on one routine you all recognise

Routine: _____

This routine asks students to...

For some students, that means...

We could change...

☐ Specific, workable, and free from blame or deficit labels

3

Universal first

Stage 4 · run these over your draft design

☐ Can students find and understand what they need?

☐ Can they take part in more than one way?

☐ Can they pause, ask for help or recover?

☐ Is the support available when demand increases?

☐ Is there more than one way to access, engage and respond?

What we adjusted:

2

Options we chose

Stage 3 · choose one or two that answer your brief

☐ Executive functioning supports

☐ Predictability

☐ Schedules

☐ Visual supports

☐ Something else: _____

Why it fits: which demand in our routine does it answer?

4

Our design

Stage 5 · then ask the trio next to you to check it

① The barrier or unnecessary demand

② The change to the environment, task or routine

③ How students' communication and experience are included

④ What we will observe

⑤ When we will review it

☐ Checked by another trio: still student-centred and environment-first

My students

Private: keep this card to yourself. Stage 6.

	Helps	No difference	Needs something more
Student A			
Student B			
Student C			

One thing I will try:

Who I will involve:

Stage 8 · commit
